FootBalance

# READY-TO-WEAR QUICKFIT BALANCE

- ✓ Durable top layer with antibacterial coating
- ✓ Comfortable, high-quality shock absorption
- ✓ Patented, custom-moulded balance plate for dynamic arch support
- ✓ High-strength base surface with double EVA construction

FootBalance QuickFit Balance is a pre-moulded, standard-width insole, perfect for various fitness and sport activities and for everyday footwear. The pre-moulded arch support can be customised at home, by heat moulding in a conventional oven.

The insole offers great shock absorption and comfort with moderate support. The double EVA construction of the base emphasises the heel & arch support and gives a refined look.

**Width:** Standard

**Topcoat:** Durable, high-strength fabric + antibacterial coating

**Cushioning:** 1 2 3

**Support:** 1 2 3

**Sizes:** 36/37/38 - 47/48

**Weight (size 42):** 53g

# READY-TO-WEAR QUICKFIT CONTROL

- ✓ Durable antibacterial coated surface for maximum hygiene and strenuous use
- ✓ Comfortable, high-quality shock absorption
- ✓ Patented and rigid balance plate for arch support
- ✓ Stabilised heel cup to decrease ankle rotation
- ✓ Perforation for ventilation and quick dry

FootBalance QuickFit Control is a pre-moulded insole specially designed for tight-fitting sports shoes, football boots and skates, to provide increased control and support for correct alignment of the feet. The pre-moulded arch support can be customised at home, by heat moulding in a conventional oven.

The rigid balance plate is optimised for tight-fitting shoes and hard midsoles, providing dynamic arch support, while the stabilising heel cup decreases ankle rotation, aiding in the prevention of misalignment. Perforation under the toe area provides ventilation and assists drying the insoles. QuickFit Control prevents feet slipping within footwear, transferring more power to your feet, so you can concentrate on your performance.

**Width:** Narrow

**Topcoat:** Durable, high-strength fabric + antibacterial coating

# READY-TO-WEAR QUICKFIT CASUAL

- ✓ Durable top layer with antibacterial coating
- ✓ Comfortable, high-quality shock absorption
- ✓ Patented, custom-moulded balance plate for dynamic arch support
- ✓ High-strength base surface

FootBalance QuickFit Casual is a pre-moulded, thin and narrow insole. Designed for day-to-day activities, it brings added comfort for snug street footwear. The pre-moulded arch support can be customised at home, by heat moulding in a conventional oven.

The insole offers moderate support and cushioning, while the balanced heel cup keeps feet in place. The microsuede top layer provides a soft and luxurious feel.

**Width:** Narrow

**Topcoat:** Durable yet soft microsuede fabric

**Cushioning:** ① 2 3

**Support:** ① 2 3

**Sizes:** 35/36 - 47/48

**Weight (size 42):** 46g
